Address Noida, Uttar Pradesh

Education

2022 - 2025

MTech - Software Engineering

BITS Pilani – Work Integrated Learning Program (WILP)

- Dissertation Project: eVidyaVault – Serverless Document Storage, Sharing & Verification System

2018 - 2021

Bachelor of Computers Application

IFTM University, Moradabad

Skills and Tool

- Angular v12+, RxJS, NgRx, Angular Material, Asp.net, C#
- TypeScript, JavaScript
- HTML5, CSS3
- SVN, GitHub, Github Copilot, Power Automate
- AWS(Lambda, S3, DynamoDB, API Gateway, Cognito)
- RREST API Integration
- Agile & Scrum Methodologies

Certification

AWS Certified Cloud Practitioner

AWS Certified Solutions Architect (Associate)

Experience

Dec 2025 - Present

Wipro Pvt Ltd

Senior Project Engineer - Frontend Developer

- Developed and maintained scalable Angular applications using TypeScript and Angular Material.
- Built 15+ reusable UI components, reducing development effort by 20%
- Integrated REST APIs and implemented efficient data handling, improving application performance
- Identified and resolved UI defects and performance bottlenecks, enhancing user experience
- Collaborated with cross-functional teams in Agile/Scrum environment to deliver features on time
- Improved application stability through error handling and form validation strategies.
- Actively communicated with clients to gather requirements, document issues, and provide effective solutions.

Project: Enterprise Web Application (Client: HP)

- Enhanced frontend modules using Angular, TypeScript, and Angular Material, improving UI performance and user experience
- Orchestrated the creation of 15+ reusable Angular components, reducing frontend development time by 20%
- Ensured UI consistency across asset planning and reporting modules within an Agile framework

Sept 2021 - Nov 2025

Wipro Pvt Ltd

Scholar Trainee - Frontend Developer

- Started career working on .NET projects (Framework 3.5–4), providing technical support, troubleshooting, and assisting in the deployment and configuration of enterprise applications.
- Transitioned to Angular as a Frontend Developer, developing and maintaining dynamic, responsive web applications using Angular and Material UI.
- Integrated frontend components with backend REST APIs for efficient data retrieval and processing, ensuring accurate and consistent UI data representation.
- Identified and resolved UI defects and performance bottlenecks, improving application responsiveness and overall user experience.
- Collaborated with senior developers and cross-functional teams to implement enterprise architecture patterns, coding standards, and Agile development practices.

Achievements and Awards

- Reduced frontend development effort by 20% through reusable Angular components.
- Star Performer Award, Wipro – 2025
