Professional Summary

Results-driven Frontend Developer with 4+ years of experience building scalable, high-performance web applications using Angular and Material UI, with a strong foundation in .NET technologies. Experienced in API integration, enterprise application support, and cloud-native development using AWS. AWS Certified Cloud Practitioner and Solutions Architect with hands-on experience in serverless architectures. Strong collaborator with proven ability to deliver user-focused solutions aligned with business goals.

Technical Skills

- Frontend: Angular (Reactive Forms, Routing, Guards), Material UI, HTML5, CSS3, JavaScript, TypeScript
- Backend: ASP.NET, REST APIs, .NET Core (working knowledge), SQL
- Cloud: AWS (Lambda, S3, DynamoDB, API Gateway, Cognito, CloudFront), Production deployments, environment configuration
- Database: PostgreSQL, Oracle
- Tools: Git, SVN, JIRA, Visual Studio, VS Code
- Reporting: Report Builder

Work Experience

Senior Project Engineer | Frontend Developer / .NET Developer

Wipro Ltd – Sep'21 to Present

- Started career working on **.NET projects (Framework 3.5–4)**, providing technical support, troubleshooting, and assisting in the deployment and configuration of enterprise applications.
- Transitioned to Angular as a Frontend Developer, developing and maintaining dynamic, responsive web applications using Angular and Material UI.
- Integrated APIs and collaborated closely with backend teams to ensure seamless communication between frontend and backend systems.
- Analyzed, identified, and resolved bugs and defects, ensuring high performance, stability, and reliability of applications.
- Actively communicated with clients to gather requirements, document issues, and provide effective solutions.
- Assisted in the deployment and configuration of applications in production environments, ensuring smooth integration with existing systems.
- Utilized **SVN and Git** for version control and collaborated using **JIRA** for task and issue tracking.
- Proficient in creating reports using **Report Builder**, enhancing data visualization and supporting business decision-making.

Achievements

- **Star Performer - Habit Flagbearer - Building Trust, Wipro** – 2025
- **Unit Award - Beyond the call of Duty, Wipro** - 2024
- **Habit Flagbearer - Building Trust, Wipro** – 2023, 2025
- **2x Victory League, Wipro** – 2023
- **Habit Flagbearer - Being Responsive, Wipro** – 2023
- **2× Inspiring Performance Award, Wipro –** 2023

Certifications

- **AWS Cloud Practitioner**
- **AWS Solutions Architect**

Education

MTech: Software Engineering *(Work Integrated Learning Program)*
Aggregate: 8.4 CGPA
Birla Institute of Technology & Science (BITS), Pilani — In collaboration with **Wipro Technologies**
2022 – 2025

Bachelor of Computer Applications (BCA) (2018-2021)
Aggregate: 9.4 CGPA
IFTM University, Moradabad

- Programming
- Computer Application

Dissertation / Academic Project

Dissertation Project: **eVidyaVault – Serverless Document Storage, Sharing & Verification System**
Birla Institute of Technology & Science (BITS), Pilani – 2025

- Developed eVidyaVault, a serverless web application for secure document storage, sharing, and verification targeted at students and job seekers.
- Implemented cloud-native architecture using AWS Lambda, S3, DynamoDB, API Gateway, ensuring scalability, high availability, and security.
- Enabled user authentication and authorization through AWS Cognito, providing role-based access control for students and employers.
- Designed APIs and serverless functions for document upload, retrieval, and verification, ensuring integrity and confidentiality.
- Developed a responsive frontend using Angular and Material UI, with intuitive file management, search, and sharing features.
- Incorporated real-time notifications and audit trails to track document activities and enhance system transparency.
- Followed serverless best practices to reduce operational costs, simplify deployment, and ensure data privacy compliance.
