Email tgtanya2000@gmail.com

Address Noida, Uttar Pradesh

Education

2022 - 2025
MTech - Software Engineering
BITS Pilani – Work Integrated Learning Program (WILP)

2018 - 2021
Bachelor of Computers Application
IFTM University, Moradabad

Skills and Tool

- Angular, Asp.net, C#
- TypeScript, JavaScript
- HTML5, CSS3
- Git, GitHub, Github Copilot, Power Automate
- AWS(Lambda, S3, DynamoDB, API Gateway, Cognito)
- RESTful API
- Agile & Scrum Methodologies

Soft Skills

- Soft Spoken
- Critical Thinking
- Team Player
- Problem Solving
- Efficient

Certification

AWS Cloud Practitioner

AWS Solutions Architect

Experience

Dec 2025 - Present
Wipro Pvt Ltd
Senior Project Engineer - Frontend Developer

- Contributed to the end-to-end Software Development Life Cycle (SDLC) including requirement analysis, design, development, testing, deployment, and post-production support in Agile/Scrum environments.
- Enhanced and maintained enterprise web applications using Angular, TypeScript, HTML, and CSS, improving UI performance and enhancing user experience across multiple modules.
- Designed and implemented reusable UI components using Angular Reactive Forms and Angular Material, improving code reusability and reducing development effort for new features.
- Integrated RESTful APIs and implemented two-way data binding, form validation, and error handling to ensure reliable data flow and boosted application stability.
- Delivered new features and UI enhancements based on business and client requirements while maintaining scalable, maintainable, and high-quality code standards.
- Collaborated with backend developers, QA teams, and stakeholders to ensure seamless API integration and successful sprint delivery in Agile development cycles.

Sept 2021 - Nov 2025
Wipro Pvt Ltd
Scholar Trainee - Frontend Developer

- Started career working on .NET projects (Framework 3.5–4), providing technical support, troubleshooting, and assisting in the deployment and configuration of enterprise applications.
- Transitioned to Angular as a Frontend Developer, developing and maintaining dynamic, responsive web applications using Angular and Material UI.
- Integrated frontend components with backend REST APIs for efficient data retrieval and processing, ensuring accurate and consistent UI data representation.
- Identified and resolved UI defects and performance bottlenecks, improving application responsiveness and overall user experience.
- Collaborated with senior developers and cross-functional teams to implement enterprise architecture patterns, coding standards, and Agile development practices.

Projects

Enterprise Web Application | Client: HP

- Improved frontend modules using Angular, TypeScript, Angular Material, HTML, and CSS.
- Orchestrated the creation of 15+ reusable Angular components, slashing frontend development time by 20% and ensuring consistency across asset planning and reporting modules within the Agile framework.
