

Tanya Gupta

Senior Frontend Developer | Angular & TypeScript Specialist | 4+ Years
tgtanya2000@gmail.com | 9368172029 | Noida, UP | [Portfolio](#) | [LinkedIn](#)

Professional Summary

Angular Frontend Developer with 4+ years at Wipro building and optimising enterprise-scale web applications for global clients including HP. Proven record of cutting frontend development effort by 20% through systematic component libraries. Hands-on with TypeScript, RxJS, NgRx, REST APIs, and AWS serverless services. AWS Certified (Cloud Practitioner & Solutions Architect – Associate). Looking for a senior frontend role where I can own architecture decisions, mentor junior developers, and drive measurable UI quality improvements.

Experience

Senior Project Engineer – Frontend Developer

Dec 2025 – Present

Wipro Pvt Ltd, Greater Noida

Enterprise Asset Management Platform | Client: HP

- Architected and maintained a suite of Angular 12+ modules for HP's enterprise asset planning and reporting platform, serving thousands of internal users across regions.
- Designed a reusable component library of 15+ Angular components (data grids, filter panels, form controls), adopted across 4 product modules and reducing new-feature development effort by 20%.
- Led REST API integration strategy across asset planning, inventory, and reporting modules — standardising HTTP interceptors, error handling, and loading states for consistent UX.
- Improved application performance by profiling and resolving rendering bottlenecks using Angular DevTools and Chrome Performance tab, cutting average page load time noticeably.
- Drove adoption of NgRx for state management in high-complexity modules, eliminating cascading re-render issues and simplifying debugging.
- Served as the primary frontend point of contact for US-based HP stakeholders — led cross-time zone requirement-gathering sessions and demoed implemented features directly to clients, translating business needs into technical specs and driving sprint-level delivery within an Agile/Scrum framework.
- Introduced form validation patterns and global error-handling strategies that improved application stability and reduced user-reported defects.

Scholar Trainee → Frontend Developer

Sep 2021 – Nov 2025

Wipro Pvt Ltd, Gurgaon

- Began career on .NET (Framework 3.5–4) projects, providing technical support and contributing to deployment and configuration of enterprise applications — building a strong foundation in enterprise software delivery.
- Transitioned into Angular frontend development within 12 months; independently delivered responsive UI modules integrated with backend REST APIs.
- Identified and resolved UI defects and performance bottlenecks across multiple sprints, consistently closing assigned issues within SLA and receiving peer recognition for quality of fixes.
- Collaborated with senior engineers to implement coding standards and enterprise architecture patterns, progressing rapidly to independent feature ownership.
- Earned 2× Inspiring Performance Award and 2× Victory League recognition at Wipro within first two years, reflecting rapid growth and strong delivery.

Academic Project

eVidyaVault – Serverless Document Storage, Sharing & Verification System

2022 – 2025

Dissertation Project, BITS Pilani WILP (MTech)

- Designed and built a fully serverless document platform on AWS using Lambda, S3, DynamoDB, API Gateway, and Cognito — directly applying cloud skills from AWS certifications to a real system.
- Implemented secure document upload, sharing workflows, and cryptographic verification to ensure document authenticity — relevant to regulated enterprise use cases.
- Sole developer: owned architecture, backend API design, and frontend integration end-to-end.

Skills

Frontend: Angular v12+, TypeScript, JavaScript (ES6+), RxJS, NgRx, Angular Material, HTML5, CSS3

Backend & APIs: REST API integration, Asp.NET, C#

Cloud (AWS): Lambda, S3, DynamoDB, API Gateway, Cognito

Tooling: GitHub, GitHub Copilot, SVN, Power Automate

Practices: Agile / Scrum, component-driven development, performance profiling, cross-functional collaboration

Certifications

AWS Certified Solutions Architect – Associate | AWS Certified Cloud Practitioner

Education

MTech – Software Engineering

2022 – 2025

BITS Pilani – Work Integrated Learning Program (WILP)

Bachelor of Computer Applications

2018 – 2021

IFTM University, Moradabad

Awards & Recognition

Star Performer Award (2025) · Unit Award – Beyond the Call of Duty (2024) · 2× Habit Flagbearer – Building Trust (2023, 2025) · 2× Victory League (2023) · 2× Inspiring Performance Award (2023)
